

ARE YOU IN THE MARKET FOR BETTER FLOORING SOLUTIONS?

Every industry has its special flooring needs. Rubber products are designed to help you achieve your goals for performance, style, safety, sustainability and value.

COMFORT

Flooring can contribute to noise reduction and aid in reducing fatigue on feet and joints.

HEALTHY AIR

Products formulated free from Red List chemicals that also require less chemicals to maintain provide improved indoor air quality and fewer external health factors.

AESTHETIC APPEAL

Choosing the right colors can create stimulating or rest-inducing environments, while unique patterns and designs can aid in disguising dirt, contributing to reduced maintenance costs.

NOISE REDUCTION

Quiet environments mean less disruption and distractions making it easier to hear, focus and rest.

SAFETY

The best flooring options – as well as proper maintenance and cleaning procedures – put safety and stability underfoot in busy lobbies, corridors and stairs where it really matters.

LIFE-CYCLE COSTS

Choosing flooring that is made to last can provide decades of durability and performance. Low maintenance costs also provide greater value over longer product life cycles.

SUSTAINABILITY

sustainability certifications

sustainability affiliations

NEW LIFE FOR OLD PRODUCTS

As our nation's landfills continue to grow, we have done the research to find new alternatives and uses for our products once they have exhausted their use in many of our oldest schools, healthcare facilities, churches, hotels, office buildings and more!

When choosing to update a floor that is nearing the end of its traditional life cycle, you can feel confident that Roppe's IMPACT recycling program meets your strictest requirements for sustainability by creating new and innovative products for the building industry.

The recycled rubber is chopped and cut into one of three primary products: landscaping mulch, playground surfacing or rubber crumb for athletic fields and other applications. The end product is a cost-effective rubber mulch that simultaneously promotes the

environment and provides a beautiful, durable landscaping alternative or an eye-catching playground surfacing that is the cleanest and safest on the American market.

Through IMPACT, products like those shown here will be manufactured from your diverted landfill waste when you support our recycling program!

what products can be recycled?

Most of our rubber products are eligible for recycling.

RAISED DESIGN

SMOOTH FINISH

DIMENSIONS

RUBBER

rubber tile

- Free of Red List chemicals, PVC, phthalates and halogens.
- Made in the U.S.A. and meets FloorScore®, NSF332 Platinum and CHPS criteria.
- Designed for high durability and ease of maintenance throughout the product life cycle.
- Stands up well to constant traffic from wheelchairs, shopping carts, luggage carriers or dollies and resists scuffing, gouging, cigarette scorching, most chemicals and common substances.
- Provides underfoot comfort, reduced noise from foot traffic and has an inherent slip resistance.
- All colors available at a Single Price Point within your selected palette.
 For Dimensions profiles, Fiesta® and Symmetry palettes are available as a special order.

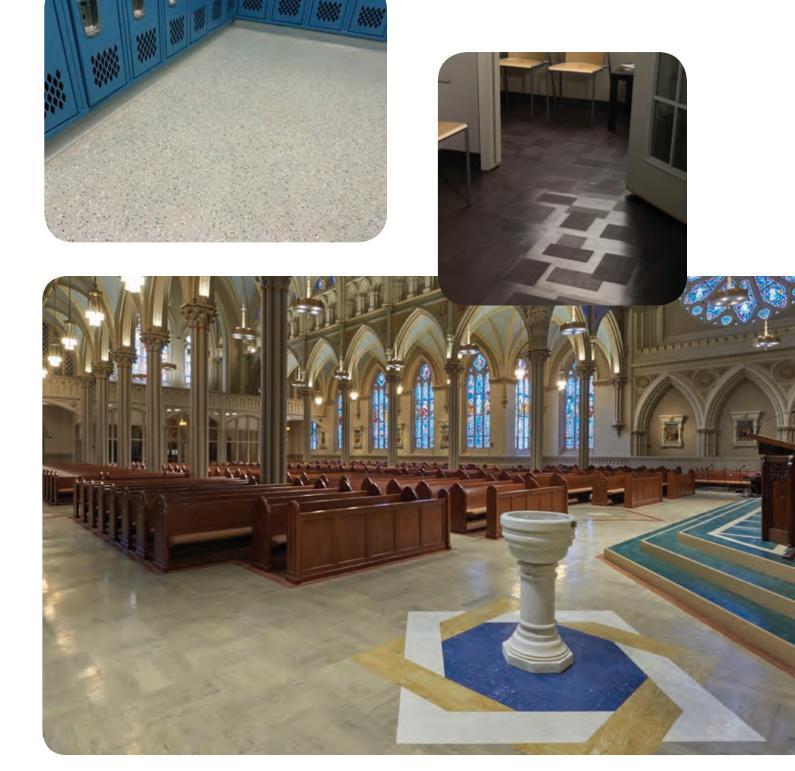

RAISED DESIGN, SMOOTH FINISH AND DIMENSIONS PROFILES

- Seven Raised Design profiles: Slate Design, Low Profile Raised Design, Textured Design, Raised Square Design, Raised Circular Vantage Profile, Hammered and Warning Tile Design – designed for high durability and ease of maintenance throughout the product life cycle. Most profiles available 19-11/16" x 19-11/16" tile sizes and 1/8" gauge.
- Smooth finish: Available in 19-11/16" \times 19-11/16", 12" \times 12" and 36" \times 36" tile sizes and 1/8" and 3/16" gauges.
- Three Dimensions profiles: Crackle, Random and Stripe.
 Designed for high durability and ease of maintenance throughout the product life cycle. Available in 19-11/16" x 19-11/16" tiles and 1/8" gauge.

Industry studies have shown that flooring materials with a higher initial cost do not necessarily translate to a higher cost in the long run. In fact, findings indicate flooring materials with a higher initial cost will perform more cost effectively over many years. For example, while rubber flooring may cost more initially, the cost of maintaining it is lower. And because it's extremely durable, it lasts a very long time. So, when examining long-term costs, it is important to consider the total cost of ownership. With the right information, you can help customers control costs – not just on the initial project, but also in the long run.

	VCT (Finish)	LVT (No Finish)	RUBBER (No Finish)
INITIAL INSTALLED COST PER SF (Material/labor only, average)	\$1.50	\$4.50-\$5.00	\$9.50-\$10.00 (Excludes heat weld material/labor)
EXAMPLE: INSTALLATION COSTS FOR 70,000 SF	\$105,000	\$350,000	\$735,000
COST OF YEARLY BIWEEKLY MAINTENANCE	\$174,465	\$32,863	\$32,863
YEARLY SAVINGS FOR MAINTENANCE		\$141,602 savings	\$141,602 savings
YEARS TO RECOVER THE COST OF THE MAINTENANCE		2.5 years	5.2 years

Source: Spencer Luallen, Technical Maintenance Specialist, Roppe Holding Company

"Finish" maintenance based on 2 full strip and wax per year; 2x scrub and recoat; scrub 650 sf per hour; recoat with 2 coats finish; 2 people 250 sf per hr; plus full cleaning every 2 weeks less the 4 weeks above. Cost of chemicals includes stripper 150 sf per G; first coat finish 2000 sf per G; coats 2-5 finish 2500 sf per G (5 coats figured). Cost of labor includes *2 people 250 sf per hour; 7 hrs per day (1750 sf per day). Cost of pads, mops, etc., includes 8 stripping pads, 6 scrubbing pads and 6 burnishing pads.

"No Finish" maintenance based on full cleaning every 2 weeks. Cost of chemicals includes all purpose cleaner 5000 sf per G; 300 sf per G of diluted solution, proper dilution ratio 4 oz neutral cleaner per 1G water. Cost of labor includes 1 person 1250 sf per hr, 7 hrs per day (8750 sf per day). Cost of pads, mops, etc., includes 0 pads if using an autoscrubber w/brush attachment or 2-3 scrubbing pads, 2-3 polish pads.

RUBBERTILE PATTERNS & SHAPES

Designer's Choice shapes and patterns are an attractive and semi-custom approach to flooring that incorporates Hammered, Smooth or Textured Design tile with 11 geometric shapes that can be used in one of our 6 standard patterns or mixed and matched to create your own unique design.

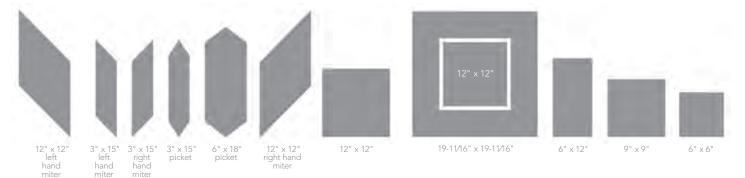

DESIGNER'S CHOICE® STANDARD PATTERNS

A great option in flooring for schools, retail areas, museums and more.

DESIGNER'S CHOICE® 11 SHAPES

RUBBERTILE PERFORMANCE COMPOUNDS

performance compound

Roppe Performance Compound Rubber Tile is a homogenous rubber tile specifically designed for use in areas that may be subject to oil, grease and other petroleum hydrocarbons. The natural durability and dimensional stability of Performance Compound rubber make this flooring ideal for most high traffic commercial installations that would otherwise not be able to withstand contact with oil and grease.

Performance Compound is durable enough to resist abrasion, impact, scuffs, gouging, burns and most chemicals, yet is also flexible enough to ease installation. The ability to maintain Performance Compound by dry buffing, rather than using waxes or finishes, decreases the long-term maintenance costs and environmental strain due to chemical use and waste.

Performance Compound Rubber Tile is only available in our solid color palette.

Ideal applications include automotive (repair shops, quick lube facilities and automobile storage), industrial (manufacturing facilities, refining facilities and material storage) and transportation (repair facilities, garages and equipment storage).

RUBBERTILE TECHNICAL

rubber tile specifications

Characteristic:	Requirement	ASTM	Test Method
Hardness:	Min 85 Shore A		D2240
Static Load Resistance:	< 0.005 in. (0.127mm) at 250lb.		F970
	(113.4kg) load		
Resistance to Short-Term Chemical Exposure:	No more than slight change in surface dulling, Surface attack, or staining	g.	F925
Resistance to Heat:	Average Delta E not greater than 8.0		F1514
Abrasion Resistance:	Less than 1 gram loss after 1,000 cycles		D3389
Dimensional Stability:	The dimensional change of the rubber floor tile in both the machine direction (MD) and the across machine (AMD) shall not exceed 0.15%		F2199
Thickness: Smooth Surface Tile:	As specified + 0.005 in. (+ 0.127mm)		F386

Squareness:	Max, 0.010 in (0.254mm) max.		F2055
Quality of Cut:	0.005 in (0.127mm) max.		F511

- 1. Roppe flooring adhesives must be used for the Roppe warranty to apply. Must be installed with recommended Roppe Adhesive in accordance with the manufacturer installation instructions.
- 2. For interior use only.
- 3. Proper maintenance on a regular basis is essential to the appearance and the wear life of the tile
- 4. Tiles may have slight color variations not detected at the factory. All tiles must be dry laid and examined for color acceptance before being installed (see installation brochure)
- 5. Heavy sunlight penetration from direct or glass-filtered sources may cause fading.
- Certain chemicals and various substances normally attack rubber formulations Roppe's rubber tile should not be used in commercial or residential kitchens and or areas where impregnation from cooking oils, vegetable fats, etc., is likely to occur. If any particular chemicals or substances are going to be present in the environment, adequate testing should be done in advance to ensure suitability for that application.
- 7. Certain oils and antioxidants sometimes used in the manufacture of rubber tires can cause staining and discoloration. In auto showrooms, for example, we recommend that tires NOT be allowed to come in direct contact with the tile; we suggest utilizing a pad made from carpet, Masonite®, scrap tile, etc. Call factory
- 8. Not recommended for use in hospital operating rooms or computer rooms; NOT a conductive tile.

F925 Resistance to Short-Term Chemical Exposure - When tested in accordance with Test Method F925, the rubber floor tile shall have no more than a slight change in surface dulling, surface attack, or staining when exposed to the following chemicals:

- > White vinegar (5% acetic acid)
- > Rubbing alcohol (70% isopropyl alcohol)
- > Sodium hydroxide solution (5% NaOH)
- > Hydrochloric acid solution (5% HCl)
- > Sulfuric acid solution (5% H₂SO₄)
- > Household ammonia solution (5% NH₄OH)
- > Household bleach (5.25% NaOCI)
- > Disinfectant cleaner (5% active phenol)

RUBBER SHEET AND TILE

- Free of Red List chemicals, PVC, phthalates and halogens. High performance compound developed for durability while still providing comfort under foot.
- Made in the U.S.A. and meets FloorScore®, NSF332 Platinum and CHPS criteria.
- Available in our Symmetry palette, a unique flecked design of tonal rubber chips, that helps hide dirt and debris between cleanings.
- Available in smooth 74" x 50' x .100" gauge rolls that allow for 1" selvage edge on both sides and a more seamless installation. Tiles are available in smooth 24" x 24" x .100".
- Versatile palette allows for product coordination with our other tile, tread, wall base and accessory products.
- All color options available at a Single Price Point. (Custom colors are available; minimum quantities may apply.)

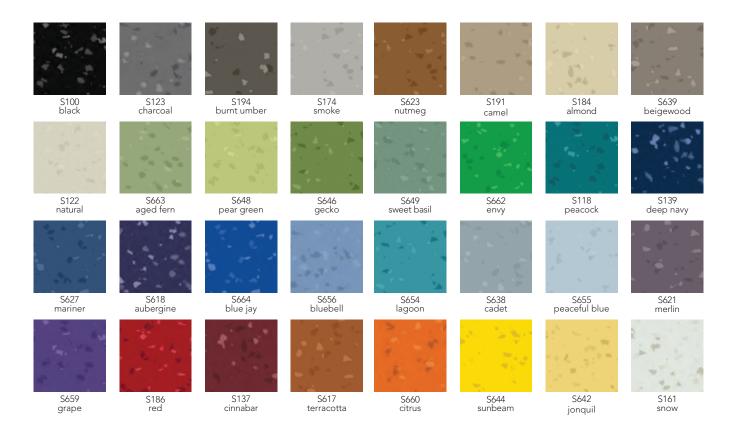

Envire® Rubber Sheet and Tile combines the sleek beauty of sheet flooring with a palette created to bring design versatility into your space creating an environment that is unique and timeless.

ENVIRE RUBBER SHEET & TILE

Rubber Welding Beads

Ensure proper fit, finish and appearance by using rubber welding bead in areas that require ongoing and comprehensive wet cleaning and where maintaining proper hygiene is essential. Rubber Welding Beads are available in 2001/f spools.

envire® rubber sheet

ARCHITECT'S MATERIAL SPECIFICATIONS

envire® rubber tile

ARCHITECT'S MATERIAL SPECIFICATIONS

Envire Rubber Tile is manufactured in Fostoria, Ohio. The tile shall be homogeneously constructed of first-quality materials and conform to ASTM F1344. The tile shall be 24" x 24" (609.6mm x 609.6mm), .100" (2.54mm) in thickness and in ______ (color selected). Envire Rubber Tile shall be free from objectionable odors, blisters, cracks and otherimperfections, which will detract from the serviceability and appearance of the product and shall contain no asbestos fiber. Install Envire Rubber Tile with recommended Adhesive in accordance with the manufacturer installation instructions.

RUBBER STAIRTREADS

As easy to install as they are to maintain, our rubber stair treads are available in the same designer colors as tile and wall base and come in a large selection of finishes, textures and gauges, including our popular Raised Design profiles.

proudly made in the

PERFORMANCE, WITHOUT THE FILLERS.

Rubber Stair Treads can be installed without the use of nose fillers in most applications.

rubber treads

RAISED DESIGN TREADS I SPECIALTY RUBBER TREADS

- Free of Red List chemicals, PVC, phthalates and halogens.
- Made in the U.S.A. and meets FloorScore®, NSF332 Platinum and CHPS criteria.
- Available in 9 Profiles: Textured, Raised Circular Vantage, Raised Square, Low Profile Raised Circular, Abrasive Strip, Rib, Smooth, Diamond and Hammered design profiles.
 Note: Custom lengths can be ordered in 6" increments up to 9 ft. (2.73m) in Textured, Hammered, Vantage, Square and Diamond designs.
- Safety abrasive strips standard on some product lines. Ribbed rubber inserts and custom strips also can be added for extra traction or to aid the visually impaired. Available with selfilluminating photo-luminescent abrasive glow strips for added safety in darkened conditions.
- Treads fully conform with ASTM F2169, Type TS and can include an added performance compound for Oil/Grease Resistance.
- All colors available at a Single Price Point within your selected palette.

JOFLEX SPARTUS MULTIPURPOSE SPORTS FLOORING

Tuflex® is an industryleader in pioneering the process that eliminated delamination, now with a formulation that is free of Red List chemicals and tirederived crumb rubber.

tuflex spartus MULTIPURPOSE SPORTS FLOORING

- New Red List Chemical Free Formulation delivers exceptional performance without the use of crumb rubber. Contains 31% biobased content from rapidly renewable resources.
- Made in the U.S.A. and meets FloorScore®, NSF332 Platinum and CHPS criteria.
- Meets or exceeds minimum performance attributes when using ASTM test methods for sound-deadening, antifungal properties, fire rating and sports flooring.
- Lifetime delamination warranty provides a homogeneous product that will not delaminate.
- 100% recyclable using our IMPACT recycling program providing a closed-loop manufacturing process.
- Exclusive 10-year aging performance warranty. Meets or exceeds minimum performance attributes for light stability when tested using ASTM F1515.

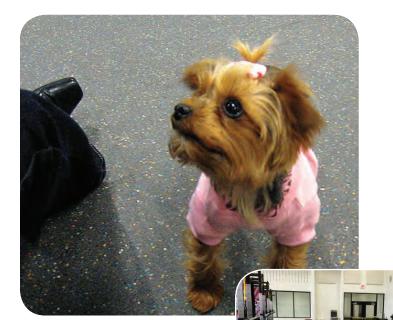

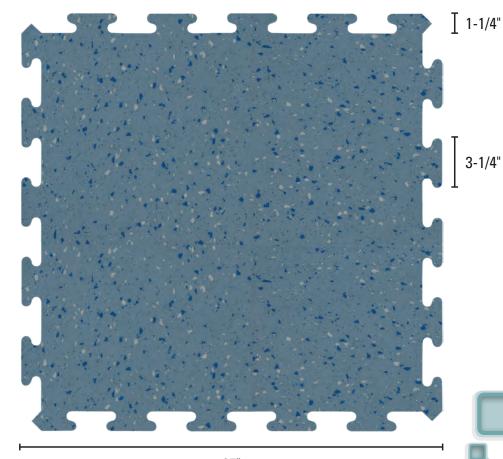

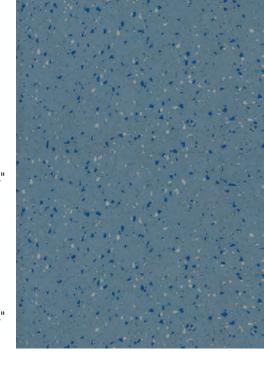

Tuflex® Spartus is designed for sports facilities, fitness and rehabilitation centers, pet spas, animal care clinics, and hospitality applications, too.

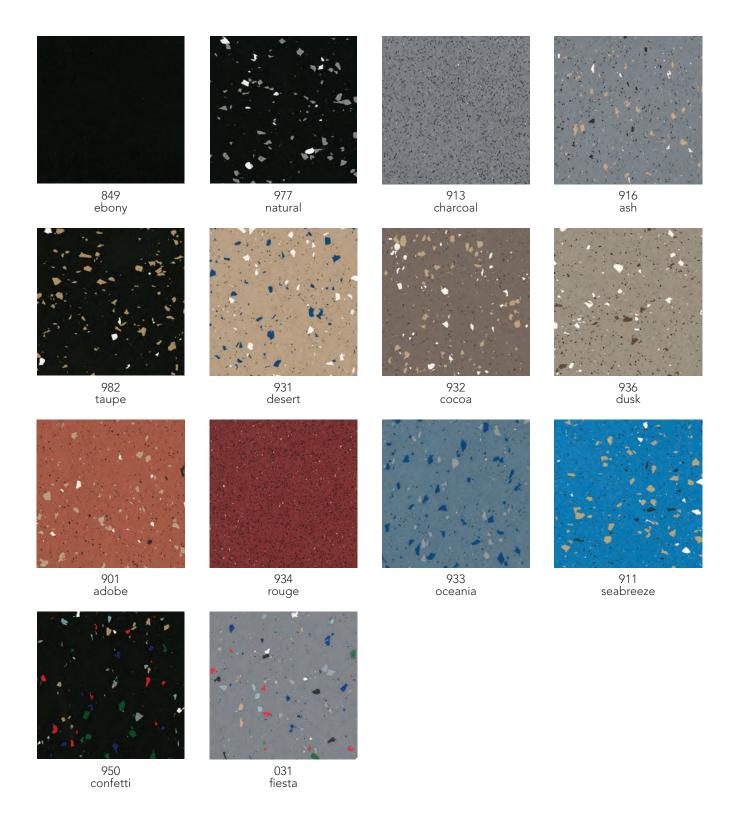

Choose from interlocking or square edge styles.

TUFLEX® SPARTUS COLORS

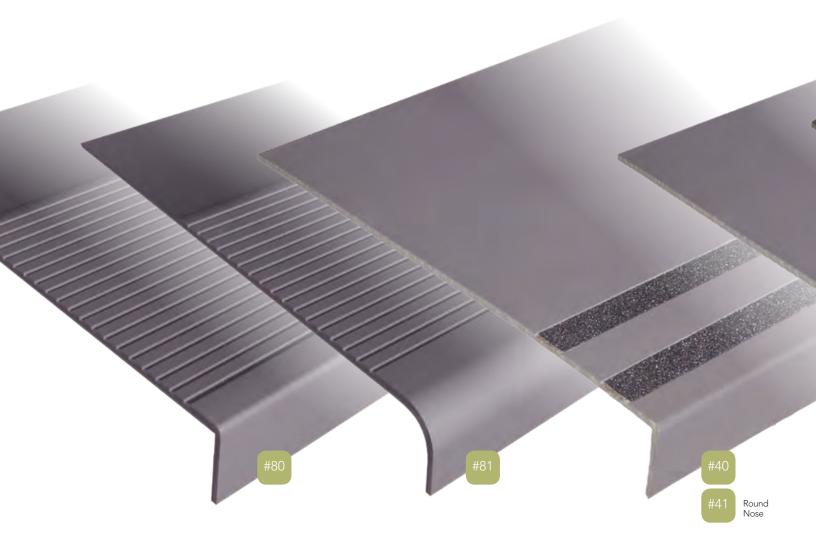

Schools, universities and professional sports teams all choose Tuflex® Spartus' design flexibility to make their mark in the locker room while they make their mark on the field.

WARRANTY

ALL PRODUCTS LIMITED WARRANTY

Roppe provides a Limited Warranty for all products if installed, maintained and used strictly in accordance with Roppe's written instructions and installed with the recommended Roppe Adhesive. Refer to Roppe Product Data Sheets before proceeding with installation. For any applications not listed, do not proceed with installation regardless of the circumstance.

It is the Flooring Installer's direct responsibility to inspect and loose lay the flooring in the room or area prior to installation to determine the proper layout and best overall appearance. Flooring Installer must inspect all material for manufacturing imperfections and irregularities prior to installation. All manufacturing imperfections or irregularities must be reported to the appropriate authority. Any defective material will be replaced at no charge, if the defect is found prior to installation.

Roppe will not be liable for labor costs for material that is installed with manufacturing imperfections and irregularities. Roppe reserves the right to inspect the manner and quality of installation of its product claimed defective. In no event shall Roppe be liable for incidental or consequential damages, even if some other provision

of this Limited Wear Warranty is unenforceable. Roppe will not be liable for labor costs or lost profits resulting from the use of or inability to use the product.

Roppe shall have no liability whatsoever to Buyer in the event the goods become defective if such defect is caused in whole or part by cuts, tears, vandalism, fire, willful destruction, damage from high heels, spiked footwear, improper installation, improper maintenance, subfloor and/or substrate irregularities, accidents, natural causes, or acts of God.

Products designated as "seconds," "mill run," "nonconforming," not being of first quality, are sold as-is and Roppe makes no warranties whatsoever, expressed or implied, with respect thereto, including warranties of merchantability or fitness for a particular use. These warranties are expressly in lieu of any other warranties expressed or implied. Roppe products are not designed for use in or near commercial kitchens. Roppe products are not designed for outdoor installations, unless specifically noted.

Contact Roppe for limitations, exclusions and additional warranty details. Or, visit our website at roppe.com for the most current Product Data Sheets and warranty information.

Roppe is proud to be a member of the following organizations, committed to the advancement of excellence in their fields:
